

Issue B

A61 Test & Drain Valve

Groove x Groove

Product Description

A61 Test and Drain valve for sprinkler systems combines the functions of test and drain for wet sprinkler systems. A61 valves have forged brass body with chrome plate brass ball valve and PTFE seats. The valves complies with the requirements of NFPA-13, NFPA-13R and NFPA-13D.

Data Sheet 7.03

The A61 valves are single handle ball valves with three working positions. They include tamper resistant test orifice and sight glass for the visual control.

Product Specifications

Test and drain valve for sprinkler systems combines the functions of test and drain for wet sprinkler systems, complies with the requirements of NFPA-13, NFPA-13R and NFPA-13D and is FM Approved and UL Listed.

Main feature as following:

- NPT threads 1" 1 1/4" 2"
- Grooved connections 32mm 50mm (1 $\frac{1}{4}$ " 2")
- Forged brass body
- Chrome plate brass ball valve
- PTFE seats
- Single handle ball valves with three working positions
- Tamper resistant test orifice and sight glass included

A61 Test & Drain Valve

A61 is a drain and test fitting for use as special type drain fitting for Fire Protection Service in accordance with Standard for Installation of Sprinkler System.

Installation Instructions

- 1. Direction of the flow to "drain" or to "test" shall comply with the direction of the arrows.
- 2. Sight glasses shall be located downstream.
- 3. Thread or groove pipe nipple into the inlet of the valve.
- 4. Thread or groove pipe nipple and valve into the outlet on the feed main.
- 5. Thread or groove piping from outlet of the valve to drain.

Valve Operating Instructions

1 TO TEST

Turn valve handle to "TEST" on the indicating plate.

After test is completed return handle to "OFF" position.

2 TO DRAIN

Turn handle to "DRAIN".

When system is empty return handle to "OFF" position.
